

Aquaglide

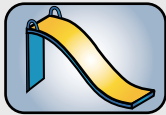

Jungle Joe™ Slide

Description Optional slide attachment for Jungle Joe™.
Specifications 9.5'L x 30"W x 7.5'H

The perfect way to cap off a grueling climb to the top of the Jungle is with an exhilarating drop to the water below. With over seven feet of vertical space to plunge through, there's plenty of time for excitement before reaching the zero-entry splash of the Jungle Joe™ Slide. The Joe Slide is a crucial accessory for Jungle Joe™.

Jungle Joe™ Slide Functional Features

Slide

Incorporates a sliding feature.

Capture the essence of the aquapark experience! Few things are more fun than whooshing into the water on a Platinum™ slide.

Jungle Joe™ Slide Technical Features

Duratex™

Commercial grade fabric reinforced PVC material.

Ideally suited for watersports, Duratex™ material is the finest, commercial grade fabric reinforced PVC available. Each Aquaglide Platinum™ item uses Duratex™ material for maximum strength and durability. The Jungle Joe™ Slide incorporates 1000d fabric fused with layers of 28 oz PVC.

3 Year

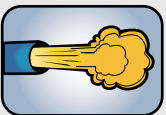

Limited Warranty against any and all manufacturing defects.

Each Aquaglide Platinum™ item offers a warranty covering any and all manufacturing defects for an extended period of time. The Jungle Joe™ Slide includes a 3 Year warranty for recreational use, a 1 year warranty for commercial use.

UV Block™ Materials specially treated for high resistance to the sun's damaging rays.

Each Aquaglide Platinum™ item is treated with UV Block™, the highest grade 3-year UV coating available. While we recommend periodic maintenance with additional UV coatings, there is no substitute for having UV Block™ incorporated into the material right from the start. UV Block™, for years of trouble-free use.

HA Weld™

Hot air-welded seams for high quality and outstanding durability.

'HA' or Hot Air Welding is the process used to fuse Duratex™ material seams for years of trouble-free use. HA welding produces clean, strong seams with no unsightly glue marks or splits.
