## Rebound™ 16' Aquapark

**Description** 8-sided water bouncer with access platform.

**Specifications** (16') 16'W x 36"H

**Specifications** (platform) 48"L x 48"W

Made from the highest quality Duratex™ material, each Rebound™ bouncer is guaranteed to provide years of fun. A surprisingly economical way for discriminating customers to appreciate Platinum™ quality! Eight-sided design offers excellent bounce without the complication of metal springs and frame. Each Rebound™ comes complete with SwimStep™ access platform and heavy duty molded boarding and transport handles. Choose from a wide selection of innovative accessories to craft your own, unique aquapark. Connect accessories using the integrated Platinum™ Interloc™ system.

## Rebound™ Technical Features

### **Duratex™**

**Commercial grade fabric reinforced PVC material.**

Ideally suited for watersports, Duratex™ material is the finest, commercial grade fabric reinforced PVC available. Each Aquaglide Platinum item uses Duratex™ material for maximum strength and durability. The Rebound™ incorporates 500d fabric fused with layers of 28 oz PVC.

### **RF Weld™**

**Radio frequency welded seams for high quality and outstanding durability.**

'RF' or Radio Frequency Welding is the process used to fuse DuraTex™ material seams for years of trouble-free use. RF welding produces clean, strong seams with no unsightly glue marks or splits.

### **HD Grip™**

**Incorporates heavy duty molded handles for convenient boarding and/or transport.**

Heavy Duty molded handles allow for convenient boarding and/ or transport. The Rebound™ includes 4 transport handles, and 4 molded boarding handles.

### **Interloc™**

**Heavy duty stainless fittings and convenient Interloc straps for modular use.**

Aquaglide Platinum items connect to one another using the Interloc™ system. Soft webbing offers some flexibility, while remaining tough enough for years of service. Only Interloc™ blends the convenience of a cinch with the security of a locking connection.

### **3 Year**

**Limited Warranty against any and all manufacturing defects.**

**Info:** Each Aquaglide Platinum™ item offers a warranty covering any and all manufacturing defects for an extended period of time. The Rebound™ includes a 3 Year warranty for recreational use.

**UV Block™ Materials specially treated for high resistance to the sun's damaging rays.**

Each Aquaglide Platinum item is treated with UV Block™, the highest grade 3-year UV coating available. While we recommend periodic maintenance with additional UV coatings, there is no substitute for having UV Block™ incorporated into the material right from the start. UV Block™, for years of trouble-free use.
