

Aquaglide

Runway™

Description Platinum™ walkway and slider.

Specifications Runway 10'L x 5'W x 6"H; Runway 20'L x 5'W x 6"H

One of the most important structural items for linking an aquapark together, the Runway™ also provides fantastic fun! The slippery channeled surface seems to invite guests to invent new ways to play. Walk, run, slip, slide, somersault, leap-frog or cartwheel down the stable Runway™ platform. Create an obstacle course or use as a stand-alone item. Available in 10' or 20' lengths. Built with heavy duty Duratex™ material and double I-beam construction for years of trouble-free service. Connect Platinum™ accessories at both ends using Interloc™ system. Runway™ 10 accommodates up to six, and Runway™ 20 up to eight users at one time.

Runway™ Functional Features

Balance

Incorporates a balance feature.

Build balance skills, spar with a friend, or create a challenge course. This balance feature adds endless excitement to your Platinum™ aquapark.

Slide

Incorporates a sliding feature.

Capture the essence of the aquapark experience! Surprising as it sounds, few things are more fun than sliding off a Runway™. See for yourself!

Runway™ Technical Features

Duratex™

Commercial grade fabric reinforced PVC material.

Ideally suited for watersports, Duratex™ material is the finest, commercial grade fabric reinforced PVC available. Each Aquaglide Platinum item uses Duratex™ material for maximum strength and durability. The Runway™ incorporates 500d fabric fused with layers of 28 oz PVC.

RF Weld™

Radio frequency welded seams for high quality and outstanding durability.

'RF' or Radio Frequency Welding is the process used to fuse DuraTex™ material seams for years of trouble-free use. RF welding produces clean, strong seams with no unsightly glue marks or splits.

Interloc™

Heavy duty stainless fittings and convenient Interloc straps for modular use.

Aquaglide Platinum items connect to one another using the Interloc™ system. Soft webbing offers some flexibility, while remaining tough enough for years of service. Only Interloc™ blends the convenience of a cinch with the security of a locking connection.

3 Year

Limited Warranty against any and all manufacturing defects.

Info: Each Aquaglide Platinum™ item offers a warranty covering any and all manufacturing defects for an extended period of time. The Runway™ includes a 3 Year warranty for recreational use.

UV Block™ Materials specially treated for high resistance to the sun's damaging rays.

Each Aquaglide Platinum item is treated with UV Block™, the highest grade 3-year UV coating available. While we recommend periodic maintenance with additional UV coatings, there is no substitute for having UV Block™ incorporated into the material right from the start. UV Block™, for years of trouble-free use.

HD Grip™

Incorporates heavy duty molded handles for convenient boarding and/or transport.

Heavy Duty molded handles allow for convenient boarding and/ or transport.
