

# Aquaglide

## Slingshot™ Log

**Description** Y-shaped log with incorporated mini-trampoline/soaker feature.

**Specifications** 15'L x 8'W x 19"H

No matter what their ages, this innovative accessory will keep the troops occupied for years! Integrates a Y-shaped balance beam with mini-trampoline. Run to the end and bounce off, or use as an additional platform. Turn the Slingshot™ over and the mini-tramp becomes a soaker – perfect for younger children or for parents to relax in on a hot day. An incredibly versatile way to add excitement to your aquapark. Slingshot™ log attaches to most other Platinum™ items using Interloc™ system.

## Slingshot™ Functional Features

### **Soak**

**Incorporates a soaking feature.**

Play, splash or lounge in this uniquely contained soaker area. Perfect for younger children, or as a secluded getaway away from the crowd.

### **Balance**

**Incorporates a balance feature.**

Build balance skills! This balance feature adds endless excitement to your Platinum™ aquapark.

### **Bounce**

**Incorporates a bouncing feature.**

Regardless of your age, few things capture childlike enthusiasm better than bouncing with wild abandon. Bounce for the sky on this Platinum™ item.

## Slingshot™ Technical Features

### **RF Weld™**

**Radio frequency welded seams for high quality and outstanding durability.**

'RF' or Radio Frequency Welding is the process used to fuse DuraTex™ material seams for years of trouble-free use. RF welding produces clean, strong seams with no unsightly glue marks or splits.

### **Interloc™**

**Heavy duty stainless fittings and convenient Interloc straps for modular use.**

Aquaglide Platinum items connect to one another using the Interloc™ system. Soft webbing offers some flexibility, while remaining tough enough for years of service. Only Interloc™ blends the convenience of a cinch with the security of a locking connection.

### **5 Year**

**Limited Warranty against any and all manufacturing defects.**

**Info:** Each Aquaglide Platinum™ item offers a warranty covering any and all manufacturing defects for an extended period of time. The Rebound™ includes a 5 Year warranty for recreational use.

**UV Block™ Materials specially treated for high resistance to the sun's damaging rays.**

Each Aquaglide Platinum item is treated with UV Block™, the highest grade 3-year UV coating available. While we recommend periodic maintenance with additional UV coatings, there is no substitute for having UV Block™ incorporated into the material right from the start. UV Block™, for years of trouble-free use.

### **Duratex™**

**Commercial grade fabric reinforced PVC material.**

Ideally suited for watersports, Duratex™ material is the finest, commercial grade fabric reinforced PVC available. Each Aquaglide Platinum item uses Duratex™ material for maximum strength and durability. The Slingshot™ incorporates 1000d fabric fused with layers of 28 oz PVC.
